

http://www.nutritionanalyser.com/food_composition/ some information from

Keep in mind that a food with several kinds of plant/grains listed lower on the label may have as much total plant/grains as a product that has one or two listed high on the label, and that meatMeal and meatByProducts often contain indigestible non-protein parts of the animal. Check out this web site: http://www.petfoodratings.net/ Follow the dietary recommendations from a knowledgeable veterinarian to prevent nutrition-induced disease in your cat

Good beef /chicken / lamb Selection Considerations High Quality Protein no comment fish can be bad if fed in large quantities less good thickening agent Large Protein %

Moderate Fat % high fat or high cost or high carbohydrate Low Carbohydrate % Bad meat by products or cellulose

Moderate Cost \$/Lb protein

Purrinn Cats Hostelry - Wet/Canned Cat Food Comparison Chart

http://www.nutritionanalyser.com/food_composition/

some information from Keep in mind that a food with several kinds of plant/grains listed lower on the label may have as much total plant/grains as a product that has one or two listed high on the label, and that meatMeal and meatByProducts often contain indigestible non-protein parts of the animal. Check out this web site: http://www.petfoodratings.net/

Good beef /chicken / lamb no comment fish can be bad if fed in large quantities less good thickening agent

high fat or high cost or high carbohydrate

more Bad

Selection Considerations High Quality Protein Large Protein % Moderate Fat %

Low Carbohydrate %

some information from http://www.nutritionanalyser.com/food_composition/

Keep in mind that a food with several kinds of plant/grains listed lower on the label may have as much total plant/grains as a product that has one or two listed high on the label, and that meatMeal and meatByProducts often contain indigestible non-protein parts of the animal.

Follow the dietary recommendations from a knowledgeable veterinarian to prevent nutrition-induced disease in your cat

Check out this web site: http://www.petfoodratings.net/

no comment fish can be bad if fed in large quantities High Quality Protein less good thickening agent Large Protein % Moderate Fat % more Bad high fat or high cost or high carbohydrate Low Carbohydrate %

Moderate Cost \$/Lb protein meat by products or cellulose
